Is owning a home right for you?

- Homeownership can provide you with stable housing costs. A fixed-rate loan will provide you with steady principal and interest payments. You will not be at the mercy of yearly increases in rent or lease payments.
- There can be tax benefits in homeownership. You may pay less income tax because home loan interest and property taxes can possibly be deducted from your taxable income.
- A home is a place you can call your own. It often comes with feelings of permanence, pride and many homeowners form deeper roots in Macomb County.
- Homeownership will provide a stable environment for you and your family that adds to the security and comfort of your day-to-day life.
